7. Cultural Rally:

8. Biswa Nabi Diwas

"Bishwa Nabi Diwas" is an annual celebration observed by Muslims worldwide to mark the birth of the Prophet Muhammad. It falls on the 12th day of Rabi' al-awwal in the Islamic lunar calendar. During this day, Muslims engage in various activities such as reciting poetry, organizing processions, distributing food to the needy, and participating in acts of charity and community service. Mosques and Islamic centers also hold special lectures and sermons to discuss the significance of the Prophet's life and teachings. The celebration varies from region to region, but the underlying theme is to honor the Prophet Muhammad's life and strive to follow his teachings of compassion, mercy, justice, and piety.

9. Students Day Celebration: Celebration of Students' Day in memory of Bodofa Upendra Nath Brahma

10. Election in college

11. College week:

12. Departmental Wall Magazine competition: Every year a Wall Magazine is prepared and Inter-Departmental Wall Magazine competition is organized during College Week.

13. College Freshers:

14. Handwritten magazine: (21.02.2023)

Handwritten Magazine competition was organized by Assamese Department and Sahitya Kanan organized an inter-department handwritten magazine competition on International Mother Language Day on 21st March 2023. The Department of Political Science won the best-handwritten magazine award for their magazine 'Vigyajyoti' and the Department of Commerce won the second-best award for their magazine 'Abiruddha'.

15. World Environment Day

World Environment Day is celebrated on June 5th every year to promote global awareness and action for protecting the environment. To inspire individuals and communities to take meaningful steps toward a sustainable future. The activities include cleaning the college campus and planting saplings in the college.

16. International Yoga Day

On the eve of International Yoga Day, the college successfully conducted a Yoga campaign. Students and teachers both participated in the program.

17. Republic Day Celebration:

74 Republic Day of India was celebrated by B.P. Chaliha College on 26th January 2023. The National Flag was unfurled, and cadets planted saplings.

18. National Science Day: This day is celebrated to mark the invention of the Raman Effect. The day is celebrated to encourage youth to understand the aspects of science and develop an interest in it. This special day is celebrated every year in our college to pay tribute to Dr. C. V. Raman for his contribution that awarded him the 1930 Nobel Prize in Physics.

SATELLITE TECHNOLOGY FOR MASS EDUCATION

Dr. Biman Lahkar
Assistant Professor, Department of Geography

"GSAT-3, known as EDUSAT is meant for distant class room education from school level to higher education. This was the first dedicated "Educational Satellite" that provide the country with satellite based two way communication to class room for delivering educational materials. This is a Geo-synchronous satellite developed on I-2K bus. GSAT-3 was co-located with METSAT (KALPANA-1) and INSAT-3C at 74° E longitude" (<https://www.isro.gov.in/EDUSAT>)

EDUSAT AS EDUCATIONAL SATELLITE

EDUSAT started revolutionizing the way in which distance education is carried out for teacher training and for providing support to remote classrooms. The DoS has activated one National Hub to support national level networks. The initial focus of EDUSAT has been on teacher training at the BRCs.

The SSA supports EDUSAT initiatives in seven states: Madhya Pradesh, Chattisgarh, Bihar and Uttar Pradesh, and Tamil Nadu, Karnataka and Haryana. In the first group of four states, the Rajiv Gandhi Project for EDUSAT supported Elementary Education (RGPEEE) is in its pilot phase. One district in each state has been taken up for the creation of infrastructure in schools and academic support structures to receive satellite signals and for the development of educational content.

The main purpose is to provide education to all people primarily children from remote areas of the country who cannot go to school or colleges. In July 2005 former President A.P.J. Kalam inaugurated the first phase of EDUSAT operations by connecting 15 teacher training centres and 50 government schools in Kerala. Since then, this satellite-based learning programme has expanded to cover a large number of schools. Institutions like IGNOU, UGC, IITs, NIOS, and NCERT are among the many that benefit from the EDUSAT facility.

Top engineering colleges were launched the tele-education services by ISRO and IIT-Bombay. This initiative offers 13 fully-fledged degree courses of 50 engineering colleges country-wide with the Visvesvaraya Technological University, Karnataka, becoming the largest satellite connected technical university in India with all its 113 engineering colleges and 120,000 students connected by satellite.

Science Bulletin

National Science Day, 2023
Volume-I, Issue 1
THEME: GLOBAL SCIENCE FOR GLOBAL WELLBEING
Science Forum and Eco-Club
B P Chaliha College, Nagarbera

Editorial

In India, "National Science Day" or "C.V. Raman National Science Day" is observed annually on February 28th to commemorate the breakthrough discovery of the Raman effect by the renowned Indian physicist, Sir C.V. Raman, on this day in 1928. The National Council for Science and Technology Communication (NCSTC) requested the Government of India in 1986 to declare 28 February as "National Science Day". The then Government of India accepted and declared the day as National Science Day in 1986. The first National Science Day was celebrated on February 28, 1987. Since then, this day has been celebrated across India in various educational, scientific, technical, medical, and research institutions, including schools, colleges, and universities.

Theme for National Science Day 2023
Union Ministry of Science & Technology released the theme for the "National Science Day 2023", titled "Global Science for Global Wellbeing" at the National Media Centre. The theme reflects the important role science plays in promoting global well-being and India as a rapidly developing nation recognizes the importance of using scientific research and innovation to address global challenges.

The Science forum and Eco-Club of B.P. Chaliha College, Nagarbera is organizing National Science Day program on 28th February 2023 to mark the occasion at B.P. Chaliha College. In this regard a science bulletin is published in both on Print and digital format by the Science forum and Eco-Club jointly. Main aim of the program and the bulletin is to promote scientific temper among the student community.
